

Taylor 815ce OVERVIEW

A jumbo that dares you to strum it aggressively.

With a cutaway blazing a path to the upper registers and the Expression System opening all the tonal gates, the Taylor 815ce Jumbo acoustic guitar has a potential for music-making that is almost limitless. Sitka spruce was born to handle the heaviest strumming, yet the soundboard allows for the finest articulation and lead work.

Coupled with the Expression System, rosewood's natural sustain makes power chords interchangeable with legato riffs and a rhythm and lead instrument in one big body. The Jumbo delivers the extra-deep resonance and volume that come with a larger sound chamber together with its own signature subtleties. Revoicing has sharpened its tonal difference from the dreadnought. With a huge presence, the 815ce is perfectly suited for aggressive strumming.

Designed to faithfully reproduce your guitar's native tone, the Expression System utilizes patented Dynamic Sensors to capture top and string vibration like never before. Created in partnership with renowned audio pioneer, Mr. Rupert Neve, the Taylor ES is seamlessly integrated into the design of the guitar from the ground up. Onboard tone controls provide added flavor, or set flat for an uncolored, exceptionally clean amplified sound.

Maple binding adds the perfect finishing touch. The finish used to create this guitar's lustrous gloss top, back, and sides was developed at Taylor for maximum durability and resistance to cold-checking. This ultra violet-cured finish is also more environmentally friendly than traditional lacquer finishes.

Features

- Body Shape: 6-String Jumbo
- Back & Sides: Indian Rosewood
- Top: Sitka Spruce
- Soundhole Rosette: Abalone
- Neck: Tropical American Mahogany
- Fretboard: Ebony
- Fretboard Inlay: Pearl 800 Series
- Headstock Overlay: Indian Rosewood

- Binding: Maple
- Bridge: Ebony
- Nut & Saddle: Tusq
- Tuning Machines: Gold-plated Taylor Tuners with Ebonoid Buttons
- Strings: Elixir Medium Gauge Strings with Nanoweb Coating
- Scale Length: 25 1/2 Inches
- Truss Rod: Adjustable
- Neck Width at Nut: 1 3/4 Inches
- Number of Frets: 20
- Bracing: Scalloped, X-Brace
- Finish: Gloss
- Cutaway: Florentine
- Electronics: Taylor Expression System
- Body Width: 17 Inches
- Body Depth: 4 5/8 Inches
- Body Length: 21 Inches
- Overall Length: 42 Inches
- Case: Taylor Deluxe Hardshell
